Here's a look at the highs and lows of bipolar disorder. The Highs. When someone is experiencing the highs of bipolar disorder, they feel overly excited and energized, even though they may sleep very little.

### The Highs and Lows of Bipolar Disorder - ULifeline

Hypoglycemia is the condition when your blood glucose (sugar) levels are too low. It happens to people with diabetes when they have a mismatch of medicine, food, and/or exercise. Non-diabetic hypoglycemia, a rare condition, is low blood glucose in people who do not have diabetes.

### Non Diabetic Hypoglycemia | Endocrine Society

Hypoglycemia is a condition that occurs when the sugar levels in your blood are too low. Many people think of hypoglycemia as something that only occurs in people with diabetes. However, it can also occur in people who don't have diabetes.

### Hypoglycemia Without Diabetes: Causes, Symptoms, and More

Christmas is full of highs and lows, but in all this we mustn't forget that it's just a week, a week that may be out of range. A week that we are not going to be in the perfect 4-7. Life is for living, Christmas is for celebrating, diabetes is for life, not for Christmas.

### Of Highs and Hypos

Your brain is a finely tuned organ. But it's sensitive to the amount of sugar, or glucose, it receives as fuel. Whether you have type 1 or type 2, both the high blood glucose of uncontrolled ...

### How Diabetes Affects Your Brain - WebMD

The rats chosen for hypos were given two lows a day, for five days, from Novolog injections in their femoral arteries, on top of their pellet treatments. To trigger lows, the rats got 0.25 units of insulin per kilogram of body weight. For a 200-pound human that would translate into about 22 units.

### Can Low Blood Sugars Cause Strokes? | Ask D'Mine

The full name for a hypo is hypoglycaemia. It's when your blood glucose level (also called blood sugar) is too low, usually below 4mmol/l. This can happen if the balance of diabetes medication you take (especially insulin), food you eat and physical activity you do sometimes isn't right. Not everyone with diabetes will have hypos.
